

# Protec+<sup>®</sup>

- ❶ 0909LM Black P59
- ❷ AM3200SM Ultra White P55

Suited for versatile everyday use in homes and beyond, in industries across transportation, education, construction and healthcare.

**VIEW THE  
PRODUCT**

A high-performance antimicrobial laminate that is capable of reducing microbe count on a surface by up to 99% within 2 hours, and recommended for vertical application. Coupled with anti-mould and anti-fungal properties, it helps to reduce cross-contamination. Effective against a broad spectrum of microbes, Protec+® utilizes the antimicrobial properties of silver creating a safer and hygienic surface for you and your family with 24x7 protection throughout the lifespan of the product\*.

## FEATURES

- Reduces microbes count on surface by up to 99% within 2 hours
- Reduces cross contamination
- 24x7 protection throughout the lifespan of the product\*

## PROPERTIES

Antimicrobial

Anti-mould  
& Anti-fungal

Tested in accordance with JIS Z2801, IOS 22196:2011 and ASTM G21  
\*Provided the surface is properly maintained
