

FORMICA® LAMINATE BY FORMICA GROUP

DOORS SPECIAL APPLICATIONS

APPLICATION

Formica Corporation offers laminate products for architectural door applications that offer significant benefits over wood veneer:

FEATURES AND BENEFITS

- HPL is cost efficient. Unlike natural veneer, HPL does not require costly on-site finishing, staining, sealing or painting
- HPL requires little or no maintenance
- HPL will not crack or split as wood can do
- State-of-the-art technologies in high pressure laminate and door production ensure high quality product
- Formica® Laminate by Formica Group offers visual consistency for uniform design
