THE ESSENCE OF OUR SURFACES IN PLAIN SIGHT

From Surface to Core

Harmonious in tone, kind to the environment and to your living spaces. Formica Cora™ was designed with five inner core colours, each carefully composed to eliminate joint lines for a sleek, elegant finish. Its palette of high-pressure laminate décor paper features abundant variety

to yield spaces that are as stylish as they are wholesome, with antimicrobial properties that keep odour and contamination at bay. Internationally certified for eco-compliance, Formica Cora™ is kind to the earth, encapsulating all-encompassing beauty that radiates from the inside out.

Without Formica Cora™

Instead of the distinct black lines that border each surface, Formica Cora™ gives you the options to select your preferred core colour, delivering grace and elegance; their own show of inner strength.

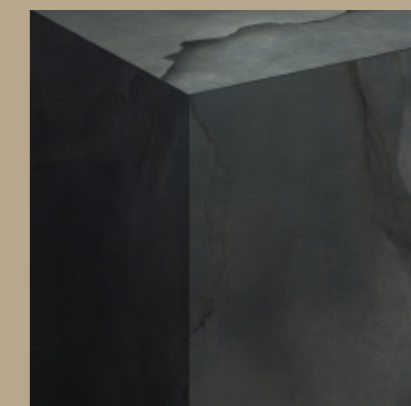

With Formica Cora™

Representative décor with **white core**

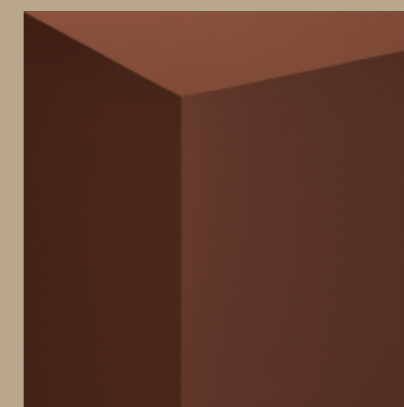

Representative décor with **light grey core**

Representative décor with **black core**

Representative décor with **beige yellow core**

Representative décor with **yellow brown core**

A CAPTIVATING GLIMPSE OF WHAT LIES AT THE CORE

The name Cora, derived from the Ancient Greek Κόρη (Kórē),
is an epithet of Persephone, the Greek goddess of the soul.
It expresses an honest rendering of what lies beneath our surfaces.

SINCE 1913, FORMICA® DESIGNS FOR TODAY WITH FOREVER IN MIND.

FORMICA'S FOUNDERS

Herbert A. Faber Daniel J. O' Connor

FORMICA'S FOUNDING

Formica® was founded in Cincinnati in 1913 by two young men, Herbert A. Faber and Daniel J. O' Connor. Their high-pressure plastic resins were intended to serve as electrical insulators replacing mineral Mica, which was used for that purpose at the time. Hence the name "Formica" was chosen. World-renowned artists and architects had also begun to recognize the potential of the decorative laminates and specified them for modernist and art deco interiors.

FORMICA'S SERVICES

Formica® offers a complete range of surface decorative products with Protec+® technology (High Pressure Laminate, Formica® Compact®, ColorCore®, Formica® Custom Graphics™ and FRguard®+), premium decorative products (DecoMetal® and FENIX®) and a range of functional products (CHguard™). All Formica® High Pressure Laminates conform to European BS EN438: 2008 standards. And meanwhile, we have got the certification of ISO 9001: 2015, ISO 14001: 2015, ISO 45001:2018, and GREENGUARD. Formica® owns manufacturing bases worldwide, with five located in Asia. Major bases are located in Shanghai (China), Jiujiang (China), Hsinchu (Taiwan), Bangkok (Thailand) and Ahmedabad (India).

FORMICA'S LOGO HISTORY

As a professional word, "Formica" has been recorded in The Oxford English Dictionary as a replacement for decorative laminates.

CHAMPIONING SUSTAINABILITY THROUGH FORMICA® SURFACES.

GREENGUARD CERTIFICATION

Formica Group has taken significant steps to ensure that its products promote a healthy indoor air quality in homes, offices, schools and other indoor environments. According to the US Environmental Protection Agency (USEPA), the most effective way to reduce indoor air pollution is to reduce or eliminate harmful chemical emissions. Formica® takes pride in meeting the strict emissions limits of the GREENGUARD Environmental Institute and in achieving GREENGUARD Certification for Indoor Air Quality for Formica® Laminates. Formica® Laminates, ColorCore®, Compact® and DecoMetal® are certified in Asia according to the GREENGUARD Certification and GREENGUARD Gold Certification standards for Indoor Air Quality. Formica® FRguard®+ is certified with GREENGUARD Certification for Indoor Air Quality.

SINGAPORE GREEN LABEL

Formica® Laminates and Formica® Compact® Grade Laminate are Singapore Green Label certified by the Singapore Environment Council under "Environmentally Preferred Surface Covering".
