

EN 1186-1:2002- Materials and articles in contact with foodstuffs. Formica Infiniti® is approved for contact with foodstuffs according to the EN 1186-1:2002

Formica Infiniti® has undergone overall migration testing for materials and articles in contact with foodstuffs according to the European Standard EN 1186-1:2002, June 2002, Materials and articles in contact with foodstuffs - Plastics - Part 1: Guide to the selection of conditions and test methods for overall migration. This Standard provides a guide to the selection of the appropriate conditions and test methods for the determination of overall migration into food simulants and test media from plastics which are intended to come into contact with foodstuffs.

The purpose for determining overall migration of Formica Infiniti® is to make sure that our product is safe to be used in contact with food

The overall migration test indicates that, when in contact with food simulants, Formica Infiniti® does not exceed the migration limits of the European regulation for repeat use applications and short term exposures.

It is also recommended that the material is washed before use, to be compliant with the regulations.
