

# DECOMETAL®

2021-2022 EDITION

DECOMETAL® SRM  
SCRATCH-RESISTANT MATT

## ABOUT DECOMETAL® SRM

DecoMetal® SRM is a new high-quality, matt surface provided on selected aluminum, copper and brass decors.

The innovative coating process involving special lacquers and hardening techniques creates an ultra-matt look with a unique impression of depth, producing a high scratch-resistant surface with anti-fingerprint properties. The resulting surface is one with high-end textures and hard-wearing qualities.

DecoMetal® SRM is suitable for horizontal use, for example, on counters in exhibitions, shop fittings, or counters in dining spaces, and tables/work surfaces in the office or kitchen. It is also useful for spaces that experience high traffic, like hotels and restaurants.

### **Lacquered surface with super matt depth effect**

Deep matt surfaces that provide the impression of warmth and elegance

### **Anti-fingerprint**

Unique technology that hides fingerprints and scuff marks, especially in high-use areas

### **High surface wear and scratch-resistant**

Durable enough to withstand scratches from hard objects

### **Suitable for horizontal use**

Create an impression of increased space for multiple surface applications beyond vertical panels

TREND  
GO MATT

The once dominant glossy look has been pushed aside, with technology allowing us to enjoy the more natural, toned-down beauty of matt finishes, both inside and outside spaces.

Matt creates interesting, understated surfaces that absorb light and come with a low-maintenance finish. It offers a grounding contrast to glam elements, adding a touch of sleek, glamorous sophistication to a space.

TREND  
BEYOND MATT

Matt finish, in combination with shining metal material, creates a striking magic of semi-sheens metallic effect which reinforces an emotional appeal of softness, rich colours and durable surfaces.

Dulled metals could provide a subtle finish for walls and facades, in matt shades of silver, gold, copper, bronze and dark tone.
